## **Global Supply Services (GSS) has been a provider of procurement and supply chain services for over fifteen years.**

Throughout GSS' history, they have helped purchasing departments with the planning and procurement of high-volume, low-value parts and commodities. The team's unique approach to supply chain management frees up valuable time and resources, allowing clients to better focus their energy towards more profitable parts of their business.

By working with Global Supply Services, you will:

- Reduce the number of suppliers that you manage.
- Benefit from GSS' global sourcing network
- Lower your inventory levels and free up capital.
- Work with a dedicated customer service representative who knows your company, its products and demand cycles.
- Eliminate line shortages by having access to locally stored quantities of buffer stock.
- Enjoy the benefits of fixed annual pricing, within an agreed commercial framework.
- Have peace of mind, knowing that all parts will be delivered on time.
