## GSS INTRODUCTION

Global Supply Services (GSS) is a leading provider of supply chain management solutions. For over fifteen years we have been helping business to streamline their procurement and logistic operations, bringing about substantial time and cost-saving benefits in the process.

Since our formation in 2002, we have developed a deep understanding of just how important a supply chain is to a business' viability and how it can contribute to its ongoing success.

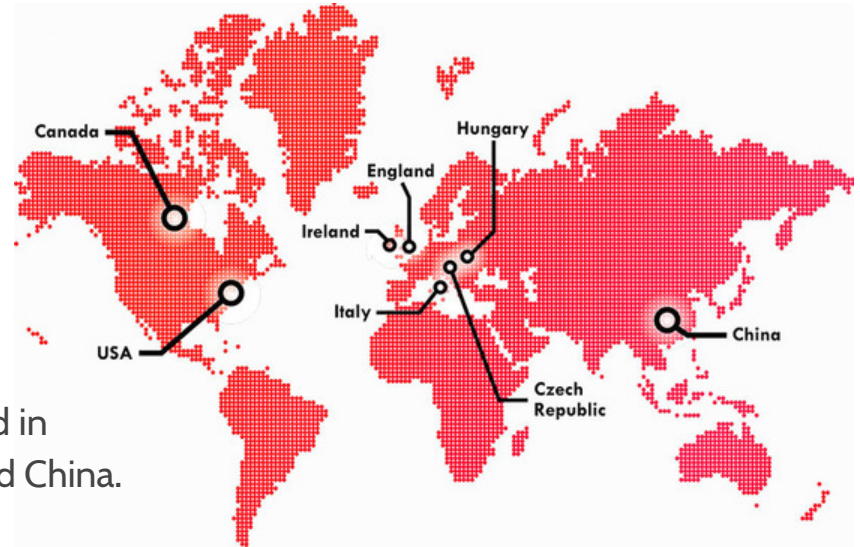

By specialising in areas such as the large-scale and scheduled procurement of electronic, electrical and electromechanical components, we are able to consolidate your supply chain and give your staff the freedom to spend their time on more productive and cost-effective tasks.

In addition to our supply chain services, we can also provide your production lines with access to locally stored buffer stock that is available at a fixed annual price, giving you the opportunity to take advantage of favourable market conditions at a moment's notice.

# CYCLOPS GROUP

Global Supply Services was integrated into the Cyclops Group, one of the leading names in the global electronic components sector in 2002.

Cyclops has offices and warehouses here in the United Kingdom and in key strategic locations such as the United States, Czech Republic and China.

When you decide to work with the Cyclops Group, you will benefit from entering into a partnership with a large, globally-focused company with a worldwide turnover in excess of £30M. With one of the largest and most highly-trained teams in the industry, you'll also have the added security that comes with working alongside a dedicated, knowledgeable and professional partner.

With large stock holding facilities, a global reach, offices and warehouses in 8 different countries and a sophisticated electronic component search database, Cyclops can find and deliver the day-to-day, shortage, and obsolete electronic components that your business requires.

**UK - Ireland - Czech Republic - Hungary - Italy - USA - Canada - China**

**Jana Oldridge:** Head of Customer Support

**Keith Garside:** Cyclops Operations Director

**Mark Williamson:** Warehouse Operative & Quality Control

**Simon Peacock:** Head of GSS

## FURTHER SERVICES

Through our partnership with the Cyclops Group, we are able to offer a wide range of services that will make life easier for you and your business.

Cyclops Electronics is one of the world's leading independent stocking distributors of electronic components. With global reach and regional offices, as well 177,232 stocked line items, Cyclops is the perfect partner to source the parts you need.

Trading Specialists look after the sale of your excess, slow moving and end-of-life component inventories. Including the management of your stock, offering immediate payment or a consignment plan, giving you the chance to free up warehouse space and monetise your idle assets.

DJ Assembly provide a range of services, including PCB and box build assemblies, prototyping and testing. Whether it is as simple as creating a weekly delivery schedule or as complex as overseeing a complete redesign, they will make sure to provide a value-added service that enhances your business.
